Вступление/ Introduction:	Hi, Mark. It's David. I hope you remember we are doing a project "Shopping". I've found some photos to illustrate it . I want to know your opinion, so, let me describe them to you.
Аспект 1 –explain the choice of the illustrations by briefly describing them and noting the differences;	They are relevant to our project because in the both pictures there are people buying something. In the 1st picture there's a family of three doing shopping in a supermarket. In the 2nd picture we can see a young woman in front of her laptop holding a card in her hand. She is probably buying something online. The main difference is the way they are doing shopping. In picture 1 the people are physically at the shop while in picture 2 the woman is at home. Another difference is that in the 1st photo the people are buying things together, whereas in the 2nd picture the woman is making her choice alone.
Аспект 2- mention the advantages (1–2) of the two types of	There are some advantages of both types of shopping. The most important advantage of buying things at a supermarket is that you can check the quality of the product. However, a positive aspect of online shopping is that you don't have to leave your comfortable home as well as you save time.
Аспект 3- mention the disadvantages (1–2) of the two types of	On the other hand, a drawback of shopping in a supermarket is that you have to carry heavy bags. As for shopping online there is a risk of being cheated. One has to be very careful with his card data.
Аспект 4- express your opinion on the subject of the project – what kind of you would prefer and why.	Personally, I'd prefer buying at a supermarket because there is a great variety of choice. Also I can touch the product I need to buy. It's very important for me.
Заключение/ Conclusion:	So, what do you think about these photos? Shall we use them in our project, Mark? That's all for now. Bye.
